1. Seating

All graduates will be seated as indicated and be ready for final checking.

2. <u>Starting procession</u> All graduates in each role rise upon hand signal of the faculty staff and turn right to follow the direction line () to the stage.

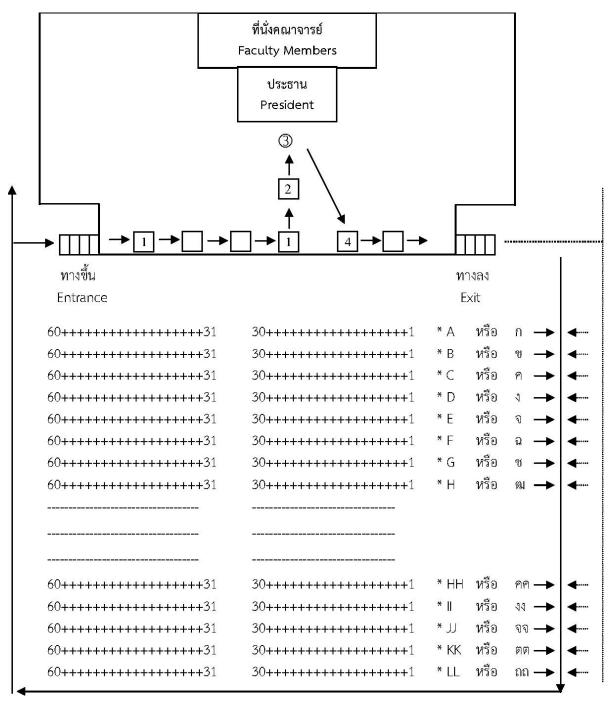

3. On stage procession Once reaching Position 1, each graduate turns to face the President/Chairman of the Ceremony, stands up right, hands kept right by one's side and bow from the waist, nodding head only is prohibited. Forward to Position 2. When your name is called, move to Position 3. Stand up and keep your eyes on the degree folder. Lift right hand slowly to fetch the degree folder sideways. Thumb upon folder. Do not pull the folder prematurely from the President's hand. Curl your elbow to place folder at chest level and step back 45 degree to Position 4. Make a right turn when reaching Position 4 and descend the stage. Hold the degree folder at chest level all the way in a graceful manner. When graduates descend the stage, follow the direction line to your row. Please note that the two ends of a row will switch in place; for example, the graduate formerly seated at A1 or n1 will switch to A60 or n60 upon return from the stage. (Each row seated 60 graduates.)
